EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Ferrell on August 4, 2005.

The application has been amended as follows:

Under Cross-Reference to Related Applications:

This application is a continuation-in-part of United States Patent Application No. 10/235,197, (Attorney Docket No. 2241-A) entitled "Single-ply Embossed Absorbent Paper Products" filed September 5, 2002, now abandoned, which was a continuation application of United States Patent Application No. 09/709,185 (Attorney Docket No. 2241) entitled "Single-ply Embossed Absorbent Paper Products", filed November 9, 2000, now United States Patent No. 6,455,129, which was based upon United States Provisional Patent Application No. 60/165,080, of the same title, filed November 12, 1999. This application is also a continuation-in-part of United States Patent Application Serial No. 10/036,770, entitled "An Apparatus and Method for Degrading a Web in the Machine Direction While Preserving Cross-

machine Direction Strength", (Attorney Docket No. 2327), filed December 21, 2001, now
United States Patent No. 6,733,626. The priorities of the foregoing applications are
hereby claimed.

In the Claims:

56-68. (Cancelled)

Allowable Subject Matter

Claims 1-55, 69, and 70 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are allowed, because the prior art does not disclose or suggest embossing a web having ridges extending in the machine direction that occur at a frequency F across the web, whereby the embossing is between a pair of embossing rolls having embossing nips oriented in the cross-machine direction and having a cross-direction length L , and further whereby either a) the product $F \times L$ is between 0.1 and 5, or b) the nips are also laterally spaced at a distance D and the product of $F \times D$ is between 0.1 and 5.

All claims recite at least the above features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed on July 5, 2005 have been fully considered.

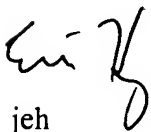

Applicant's arguments and showing of evidence have overcome the rejections of claims 1-4 and 42-44 over Baggot set forth previously.

All other prior art rejections have been overcome by amendment.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Hug whose telephone number is 571 272-1192. The examiner can normally be reached on Monday through Friday, 10:00 AM to 6:00 PM.
